EXPERIENCE

LocumTenens.Com

Licensing Operations Intern

Alpharetta, GA

May 2023 – July 2023

- Cleaned, formatted, and verified data in excel spreadsheets for monthly audits.
- Analyzed documents to ensure provider compliance based on varying medical board's licensing requirements.
- Presented a business proposal to the company president, suggesting a live dashboard to address healthcare shortages and maximize revenue.

Broadstreet Institute

Community Health Needs Assessment Data Entry Intern

Remote

Oct. 2022 – Dec. 2022

- Researched and recorded qualitative data as a member of the CHNA team.
- Assessed population needs, assets, and capacities that affect communities' health through published Community Health Needs Assessments

Sodexo - Grady Memorial Hospital

Healthcare Operations Intern

Atlanta, GA

May 2022 – July 2022

- Worked directly with the patient experience manager to analyze data to pinpoint lacking areas of the patient experiences and used data from these departments to form feasible solutions.
- Presented recruitment and retention strategies to the client executive based on departmental metrics.
- Attended meetings with district managers and client executives, and formulated ideas on how to improve patient experiences within food and environmental services.

Kennesaw State University

Track and Field Athlete

Kennesaw, GA

Aug. 2020 – May 2023

- Achieved 3.9 GPA while practicing 20+ hours/week, balancing full-time studies, and competing year-round.
- Demonstrated the ability to motivate and inspire others through interpersonal relationships and mentorship.
- Recognized for outstanding performance as a freshman, earning an "Atlantic Sun Conference Freshman of the Week" nomination in January 2021.

PROJECTS

House Price Regression Analysis

- Conducted an in-depth analysis of real estate data using R Programming, revealing correlations between home prices, square footage, and the number of bathrooms.
- Implemented a multiple linear regression model to evaluate the potential impact of a \$40,000 remodeling investment on property value.

Sales Exploratory Data Analysis

- Utilizing python, I analyzed a sample sales data set of a grocery store, extracting key insights on popular items, sales regions, and standard shipping methods.
- Performed an extensive business analysis on the overall profits of categorical variables, suggesting more strategic and streamlined marketing research efforts to increase sales in underrepresented regions.

Hospital Emergency Room Dashboard

- Built an interactive Tableau dashboard, utilizing sample hospital emergency room data.
- Visualized patient volumes, satisfaction, demographics, and KPIs for improved data- driven decision making.
